REMARKS		25X1

25X1

1. Twenty-eight Pe-2s were counted at the Twelfaxing (P 49/L 4E) airfield. The same aircraft type was previously seen there.
2. More planes were possibly parked in the hangars. A mobile crane with a set of pulleys for the exchange of engines was observed at the field for the first time.
3. There was no flying and little other activity at the field.

Comment:

25X1

For lack of comparable information the correctness of the report cannot be determined. The occupation of the field has apparently not changed since the last observations of October 1949. From the type and number of aircraft and the reported motor vehicle it is assumed that a bomber regiment of the 1st Gds Emr Div is still stationed at the field.
